WHO WE ARE

ENGINEERING AND INDUSTRIAL SERVICES

OUR GOAL IS
TO PROVIDE
EXCEPTIONAL
QUALITY, TAILORED
SERVICES, AND
CONTINUAL
SUPPORT.

REDA Hazard Control is a part of the REDA Group, an international engineering and industrial services company.

REDA Hazard Control offers a full spectrum of end-to-end solutions for hazard control. Our areas of expertise include fire protection, safety, and security. We are a leading provider of fire protection services and safety systems & equipment. We also offer solutions that will improve and enhance your site security.

We also provide water, solar energy, and e-mobility under the REDA Green to support the Kingdom in achieving its goals in 2030 vision.

Our goal is to provide exceptional quality, tailored services, and continual support. We exist to protect the lives of people and the community in which we live and work. This is why we always strive for excellence in all that we do.

Our services are innovative, comprehensive and represent excellent value with professional, world-class local content.

We consider our customers as our partners and we believe in working with you on a personal basis to ensure precision until you are completely satisfied. So when it comes to safety, rest assured that we have all the bases covered.

REDA Hazard Control believes in a team approach for creating a safer facility. We work closely with our clients to formulate and implement high-quality, comprehensive programs that exceed their expectations.

SOLUTIONS FOR
HAZARD CONTROL

WHAT WE DO

SAFETY, SECURITY AND BEYOND..

**WE SPECIALIZE
IN THE AREAS OF
FIRE PROTECTION,
SAFETY, AND
SECURITY.**

Established in 1986, REDA Hazard Control has been providing products, systems, and services to a wide variety of industries across the world. We specialize in the areas of fire protection, safety, and security.

We are committed to providing products and services to customers in a safe, responsible manner to ensure the safety of our employees, the environment, our customers, shareholders and the communities in which we operate.

Our dedicated team collaborates with leading manufacturers around the world. We combine their scientific and technological expertise with our wealth of contracting, installation, and service experience.

Whether large or small, REDA Hazard Control has the people, products, financial resources, and the expertise to handle your project from start to finish. We will evaluate a broad range of solutions to find what fits your needs.

REDA Hazard Control team has developed tactics and equipment that assure the greatest margin of safety are built to meet the demanding challenges found within high-risk industries. We fully comply with EH&S laws and regulations wherever we operate, ensuring regulatory safety standards are met.

WHERE WE SERVE

WITHIN YOUR REACH

OUR CULTURE

GREAT PLACE TO WORK

YOUR FIRST
CALL FOR
PROTECTION

Mission

To provide cutting edge solutions.

Purpose

To help create a safer environment.

Values

Integrity Having the courage to do the right thing at all times and in all circumstances, whether or not anyone is watching and no matter what the consequences.

Pursuit of Excellence Achieving distinction through innovation, learning and agility.

Service Delivering excellence in products, service and relationships.

Teamwork Collaborating to develop innovative ideas and optimal solutions.

Accountability We take ownership for our actions and their outcomes. We have the courage to make bold decisions and we deliver what we promise.

SAFETY POLICY

GET BACK HOME SAFE

The company operates a safety policy in compliance with internal set objectives of recognized standard.

Safety consultants are retained to advise on all safety matters related to company activities.

Safety awareness is highlighted for all projects and risk assessment is prepared to recognized standards to control hazards.

The safety policies followed are aimed at working together with clients to achieve the objective of zero safety related incidents.

WE EXIST TO
PROTECT THE LIVES
OF PEOPLE AND
THE COMMUNITY
IN WHICH WE LIVE
AND WORK

HEALTH, SAFETY & ENVIRONMENT POLICY

Our commitment

REDA Hazard Control (RHC) has moral and legal responsibility for the protection of health, Safety, and the environment, complying with all applicable Safety Codes, Rules and Regulations, and Standards to ensure a safe working environment. All incidents causing loss be reported promptly and a thorough investigation be conducted to identify causes and initiate action to prevent a recurrence.

We will not be satisfied until we succeed in eliminating all injuries, occupational illness, unsafe practices, and incidents of environmental harm from our activities.

We will operate in compliance with all relevant environmental legislation and will use available technologies, best practices, and controls that will prevent pollution of the environment.

Our plan

To meet our commitment, RHC will:

- To demonstrate visible and active leadership that engages our employees and subcontractors and manages Health, Safety, and Environmental (HSE) performance as a line responsibility with clear authorities and accountabilities.
- Ensure that all employees and subcontractors employees understand that working safely and protecting the environment is a condition of employment and that they are responsible for their own safety and the safety of those around them.
- Provide employees with the capabilities, knowledge, and resources necessary to instill personal ownership and motivation to achieve HSE excellence.
- Provide relevant HSE information to subcontractors and require them to provide proper training for the safe and environmentally sound performance of their work.
- Provide and maintain safe and healthy working conditions, and follow operating practices that will safeguard all employees, secure working conditions, and efficient operation.
- Strive for continual improvement of our HSE management system and our performance by setting challenging goals and targets, monitoring our performance, and celebrating our successes.

Mohammed Ezzat Beck
Managing director

ENVIRONMENTAL POLICY

RESPECTING OUR PLANET

Environmental policies are operated to ensure safeguards in respect of the environment and society in connection with all of its activities. The company additionally complies with all client requirements regarding environmental policies, which are in force at its sites or operating locations.

REDA TRADING & Development Co. company policy is aimed at reducing environmental impact to a minimum and ensuring that all related activities are carried out in accordance with recognized approved procedures.

**OUR AIM IS
TO REDUCE
ENVIRONMENTAL
IMPACT TO A
MINIMUM**

QUALITY POLICY STATEMENT

REDA SPECIALIZES IN THE MARKETING AND SUPPLY OF QUALITY, RELIABLE AND SAFE MATERIALS, EQUIPMENT AND TECHNOLOGY FOR THE USE OF INDUSTRIAL PLANTS. THE OBJECTIVE OF REDA IS TO SUPPLY PRODUCTS THAT ARE FIT FOR USE AND HAVE THE DESIRED QUALITY IN ACCORDANCE WITH CUSTOMER REQUIREMENTS AND SPECIFICATIONS. OUR CUSTOMERS EXPECT SAFE, RELIABLE AND OPTIMUM COST PRODUCTS DELIVERED ON TIME.

WE ARE COMMITTED TO QUALITY, INTEGRITY AND EXCELLENCE IN EVERYTHING WE DO. IN ORDER TO MEET OUR MISSION AND ACHIEVE OUR VISION, WE AT REDA MUST CONSISTENTLY MEET OR EXCEED CUSTOMER REQUIREMENTS, AND CONTINUOUSLY IMPROVE OUR PROCESSES THROUGH WHICH WE DELIVER OUR PRODUCTS AND SERVICES.

QUALITY PROBLEMS ARISING IN VARIOUS AREAS ARE TO BE IDENTIFIED AND SOLVED WITH SPEED, TECHNICAL EFFICIENCY AND ECONOMY. WE SHALL FOCUS OUR RESOURCES, BOTH TECHNICAL AND HUMAN, TOWARDS THE PREVENTION OF QUALITY DEFICIENCIES TO SATISFY THE ORGANIZATIONAL GOAL OF:

"RIGHT FIRST TIME ... EVERY TIME".

OUR SUCCESS WILL BE MEASURED BY CUSTOMER SATISFACTION. WE ARE COMMITTED TO PROVIDING STAFF WITH THE TRAINING AND TOOLS NECESSARY TO CONTRIBUTE TO OUR QUALITY EFFORT. THE SUCCESSFUL OPERATION OF THE SYSTEM RELIES UPON THE CO-OPERATION AND INVOLVEMENT OF PERSONNEL AT ALL LEVELS. OUR COMMITMENT TO QUALITY WILL ENSURE THE CONTINUED SUCCESS OF OUR COMPANY AND THE SATISFACTION OF CUSTOMERS AND STAFF.

WHO WE ARE

REDA GREEN

Our Vision

REDA Green emerges as a visionary company committed to revolutionizing Saudi Arabia's sustainability journey. As the Kingdom of Saudi Arabia sets ambitious goals for a greener, more sustainable future, REDA Green stands at the forefront, offering cutting-edge irrigation and landscape solutions.

Our Solutions

REDA Green is a pioneering company dedicated to advancing the adoption of sustainable technologies in Saudi Arabia. We recognize the urgent need to transition towards eco-friendly alternatives that reduce our carbon footprint, enhance energy efficiency, and contribute to a cleaner environment. With a passion for innovation and a deep commitment to sustainability, REDA Green strives to be the driving force behind this transformation.

Our Commitment

At REDA Green, we are more than just a company; we are catalysts for change. Our mission is to accelerate Saudi Arabia's journey towards a sustainable and eco-conscious future. We do so by empowering individuals and organizations with the tools and technologies needed.

We invite you to join us on this transformative journey as we work hand in hand with Saudi Arabia to create a greener, more sustainable, and environmentally responsible future for generations to come. Together, we can drive progress, reduce emissions, and build a cleaner, brighter Saudi Arabia.

WHO WE SERVE

GREENER FUTURE

PRODUCTS

- Irrigation Products and Systems
- Landscaping Products & Solutions
- Integrated Solution For Smart Farming

IRRIGATION PRODUCTS & SYSTEMS

SUPERIOR IN EVERY WAY

Irrigation is the regulated application of water to land to grow crops, landscape plants, and lawns. In arid locations and with below-average rainfall, irrigation grows crops, maintains landscapes, and restore disturbed soils. Irrigation also prevents soil consolidation, frost damage, and weed growth in grain fields. It cools animals, reduces dust, removes sewage, and supports mining.

There are numerous irrigation methods including drip irrigation, sprinkler irrigation, sub-irrigation, and more. They supply plant water differently. Water should be applied consistently to give each plant the right amount of water. The irrigation controller, water pump, piping, fittings, wires, power generator, and other components make up the complete irrigation solution.

IRRIGATION PRODUCTS & SYSTEMS

SUPERIOR IN EVERY WAY

01 Smart Irrigation Controller

The Sentinel® Central Control System is a powerful system that “stands guard” over large irrigation sites. It allows a user to control up to 999 field satellites from a remote location with a desktop or laptop. Sentinel Controllers feature an intuitive interface.

02 Commercial Irrigation Controller

When paired with a Smart Connect receiver, the EVOLUTION Series controller is able to communicate wirelessly to a series of powerful and water saving accessories, including the ET-based Weather Sensor, Precision™ Soil Sensor, Auxiliary Relay, Handheld Remote, or SMRT Logic.

03 Drip Irrigation Systems

Drip irrigation solutions save water for everyone. Water conservation is crucial during more severe droughts. Arid regions have significant water limitations. A drip irrigation system that waters plants' roots is the best approach to maintain plantings and green spaces under such situations.

04 Piping

There are a variety of pressure ratings available for PVC pipes, including 6 bar, 10 bar, 16 bar, SCH40, and SCH80. POLYETHYLEN Pipes come in a variety of materials and pressure ratings, such as PE80 and PE100 and LLDPE 4 Bar. HDPE: 6, 10, or 16 Bars. These pipes are manufactured by numerous reputable factories.

05 Fittings and Accessories

Polyethylene fittings for landscape, irrigation, and agriculture applications. Different types including compression and barb are available with different pressure rating: 6 bar, 10 bar and 16 bar.

06 Standard Irrigation Cable

In direct burial installations, irrigation cable connects the power supply to the central control unit, field controllers, and solenoid valves. Solenoid valves are commonly wired to their respective controllers in electrically operated residential and commercial irrigation systems.

07 Decoder irrigation cable

Two solid conductor copper, high molecular weight polyethylene insulated sprinkler wires twisted together are moisture and abrasion resistant. This product can be used in direct burial, in wet and dry environments. The cable is certified and available in various sizes.

08 Water Pumps

REDA Green provides pump solutions for residential, commercial, and infrastructure projects in all ranges. Our pumps are used for heating and cooling, water supply, irrigation, agriculture, industrial, naval, and mining.

15 Automation and Control Systems

The focus of our irrigation control systems cut water consumption and save time and money. For dozens of customers, our certified engineers design industry-leading irrigation control systems.

22 Power Generators

We offer customized power solutions with high performance engines for generator sets whether stationary or mobile in order to meet our customers' requirements by covering all wide power ranges.

LANDSCAPING PRODUCTS & SOLUTIONS

QUALITY OF LIFE

Landscape design affects housing areas' social, aesthetic, and environmental qualities.

Therefore, an innovative landscape that incorporates ecologically beneficial elements is crucial to creating a sustainable living environment.

Housing landscape design is also influenced by user demographics.

Kids like activities they can do alone or with others. This indicates that adults prefer mind-calming activities like watching their kids play.

Teens prefer landscape design that offers excitement and privacy.

Comfort, safety, security, and easy access are important to elderly and disabled people.

- 2 Decorative Fountains
- 3 Aeration Systems
- 4 Filtration Systems

LANDSCAPING PRODUCTS & SOLUTIONS

QUALITY OF LIFE

Waterplay Solutions

Along with WATERPLAY by MARK, we provide top-quality aquatic play solutions. Splash and spray, aesthetically styled urban water features, activity towers, and water management are available. We create vacation parks, communal spaces, hotels, resorts, water parks, medical and housing developments, and other attractions with our partner.

The main advantages of WATERPLAY SOLUTIONS are:

1. Help children gain vital social skills while playing with other children as part of the contribution strand, and when conflicts arise, they may practice problem-solving as part of the belonging strand, learning the boundaries of proper behavior.
2. Make safety surfacing lively and entertaining.
3. Provide activities that appeal to several age groups.
4. bringing design concepts to aquatic ecosystems to enable enjoyable experiences with flexible, intuitive, and approachable play for all ages and abilities.

Aquatic Play Collections

Discover freestanding components that adapt to any play environment—from the splash pad to the pool. Each collection offers creative product and colour groupings to inspire your next project. Our collection includes but not limited to Cirque, Grasslands & Shoreline, Nautical High Seas, Kaleidoscope, Revolutions, etc.

Play Pals

These universal play features enhance any splash pad design. Whether you want to add more dumping buckets, sneaky water cannons, or adorable spraying animals, Play Pals fit seamlessly into any space. Discover something for all ages and activity levels. We dare you not to use it on your next design.

Structures - FreeStanding

Make your play space the centre of attention with Structures! Create a land of imaginative play as waterplayers set sail on a nautical adventure or make their jaw drop at the sight of a 15-foot fortress of splashes with one of our four new Titans creatures (Schooner, Calypso, Sloop, Bun-Bun, Mr. Ribbit, and more).

Activity Towers

Bring Play to New Heights For All Ages & Play Styles! Waterplay's Activity Towers are available in four distinct signature design footprints: Mini, Discovery, Exploration, & Adventure. Bring an elevated, dynamic play experience to any play space, with clear sightlines for optimum safety, big splashes and immersive play points for high engagement, exploration and ultimate fun!

Decorative Fountain

Enhance the visual appeal of your pond or lake with decorative Fountains. Whether you're looking for a stunning water display 30 feet high or an accent to add sparkle to your water, we have a product that will fit your needs. All Fountains are engineered and built to run reliably and efficiently year after year.

Aeration Systems

Incorporate high levels of oxygen into your body of water with an aeration solution. To fit a variety of applications, Diffused Aeration systems are located at the pond bottom, while surface aerators float at the top.

Landscape lighting, artificial grass, health and sports, integrated playgrounds, playground equipment, urban furniture, parking shed, etc. are only some of the other products and services offered by REDA Green.

Sports and Safety Flooring

Traction to prevent slips, cushioning to prevent falls. We provide Tiles, Landing Pads and Safety Messaging for a vast range of applications from splash pads to pools, Waterparks, locker rooms, bathrooms, and more.

Filtration Systems

Large-Capacity RBY Screen and Disc Filters

Large-Capacity high flow and low maintenance with a solid build

These filters provide large filtration capacity for residential, commercial, and municipal drip applications. This means less cleaning and lower maintenance costs. The filter body and cover are made of high impact thermal plastic, rated to withstand water up to 140° F (60° C) and pressures up to 116 psi (8 bar). With flow rates ranging from 33 gpm to 110 gpm, these filters are perfect for larger drip irrigation zones.

Automatic Disc Filter

Modular designed filtration unit for easy capacity expansion and plug-and-play installation. Automatic disc filter combines the effectiveness of media filtration and the efficiency of screen filters in one filter. 3 dimensional filtration allows for outstanding organic matter removal. A fast and efficient backflush helps you save on input costs. Pre-assembled units available complete with controller, backflush valves and stand.

Automatic Screen (Electric) Filter

These automatic electric filters combine the advantages of high quality filtration from different water sources (sewage, reservoirs, rivers, lakes, etc.) with a self-cleaning feature, offering the customer a continuous water supply.

INTEGRATED SOLUTION FOR SMART FARMING

AGRICULTURE SOLUTIONS

Vision 2030 is protecting and enhancing the Kingdom's natural environment by taking a holistic view of precious ecosystems. It is also fostering sustainable agriculture practices across the Kingdom that will help to provide citizens and residents with safe, high-quality local food, whilst maintaining water balance and supporting the restoration of biodiversity. Sustainable approaches are helping prevent soil erosion and tackle desertification by protecting native flora that is used by wildlife for food and shelter.

A holistic perspective of priceless ecosystems is taken in Vision 2030 in order to maintain and improve the Kingdom's natural environment. Additionally, it is promoting sustainable agricultural techniques throughout the Kingdom, which will aid in supplying locals and people with safe, high-quality food while upholding water balance and assisting in the restoration of bio-diversity. By preserving natural flora, which wildlife relies on for food and shelter, sustainable practices are preventing soil erosion and combating desertification.

INTEGRATED SOLUTION FOR SMART FARMING

AGRICULTURE SOLUTIONS

Greenhouses

Our greenhouses are designed and constructed for farms all over the world, owing to our team's and partners' extensive industry knowledge and constant search for innovative and technologically advanced solutions. Turnkey projects that are completely monitored by our experienced team, solutions that include all accessories down to the least detail, make the difference.

We provide dependable and adaptable solutions including Atlanic Line, Titan Line, Cover Line and Defendo System for all horticultural and floricultural requirements. Whether our client has to cover a broad area, is seeking for a solution in a severe climate, is dealing with budget constraints, or is researching the prospect of producing energy while retaining efficiency.

Greenhouse Climate

A greenhouse is more than simply a steel structure; it is a complicated combination of solutions designed to provide a natural balance of all the elements required for healthy plant growth. We offer the greatest climate control and irrigation products in collaboration with our partners. Our products include Irrigation systems, rolling benches, heaters, air fans, air extractors, cooling systems, an auto shading system, and other accessories.

SUPPORT SERVICES

EVERY SINGLE STEP MATTERS

We have the capacity to manage and perform turnkey projects across the sectors we serve working with international consulting houses and EPC Contractors. In addition to the technical support provided by our world reputed partners, we have at our disposal the advanced planning, design and modelling technology. We have the right people, products, financial resources and expertise to manage and serve your complete projects.

REDA Green is capable of undertaking turnkey projects in the aforementioned solutions for all industries. Our services include but not limited to the following:

- Conceptualization, site survey, detailed design and the production of drawings.
- Supply and installation of a wide range of products & systems.
- Quality control during the project execution.
- Testing & commissioning of systems.
- Provision of As-Built documentation.
- After-sale service and maintenance.

REDA Green has executed many prestigious projects in the industrial and commercial Industries since its birth..
