WHO WE ARE

ENGINEERING AND INDUSTRIAL SERVICES

**OUR GOAL IS
TO PROVIDE
EXCEPTIONAL
QUALITY, TAILORED
SERVICES, AND
CONTINUAL
SUPPORT.**

REDA Hazard Control is a part of the REDA Group, an international engineering and industrial services company.

REDA Hazard Control offers a full spectrum of end-to-end solutions for hazard control. Our areas of expertise include fire protection, safety, and security. We are a leading provider of fire protection services and safety systems & equipment. We also offer solutions that will improve and enhance your site security.

Our goal is to provide exceptional quality, tailored services, and continual support. We exist to protect the lives of people and the community in which we live and work. This is why we always strive for excellence in all that we do.

Our services are innovative, comprehensive and represent excellent value with professional, world-class local content. We consider our customers as our partners and we believe in working with you on a personal basis to ensure precision until you are completely satisfied. So when it comes to safety, rest assured that we have all the bases covered.

REDA Hazard Control believes in a team approach for creating a safer facility. We work closely with our clients to formulate and implement high-quality, comprehensive programs that exceed their expectations.

**FULL SPECTRUM
OF END-TO-END
SOLUTIONS FOR
HAZARD CONTROL**

WHAT WE DO

SAFETY, SECURITY AND BEYOND..

WE SPECIALIZE IN THE AREAS OF FIRE PROTECTION, SAFETY, AND SECURITY.

Established in 1986, REDA Hazard Control has been providing products, systems, and services to a wide variety of industries across the world. We specialize in the areas of fire protection, safety, and security.

We are committed to providing products and services to customers in a safe, responsible manner to ensure the safety of our employees, the environment, our customers, shareholders and the communities in which we operate.

Our dedicated team collaborates with leading manufacturers around the world. We combine their scientific and technological expertise with our wealth of contracting, installation, and service experience.

Whether large or small, REDA Hazard Control has the people, products, financial resources, and the expertise to handle your project from start to finish. We will evaluate a broad range of solutions to find what fits your needs.

REDA Hazard Control team has developed tactics and equipment that assure the greatest margin of safety are built to meet the demanding challenges found within high-risk industries. We fully comply with EH&S laws and regulations wherever we operate, ensuring regulatory safety standards are met.

WHERE WE SERVE
WITHIN YOUR REACH

OUR CULTURE

GREAT PLACE TO WORK

**YOUR FIRST
CALL FOR FIRE
PROTECTION**

Mission

To provide cutting edge solutions in the fire, safety and security fields.

Purpose

Helping to create a Safer Environment in the industries we serve.

Values

Contributing to building world-class local content.

Integrity

Having the courage to do the right thing at all times and in all circumstances, whether or not anyone is watching and no matter what the consequences will be.

Pursuit of Excellence

Achieving distinction through innovation, learning and agility.

Service

Delivering excellence in products, service and relationships.

Teamwork

Collaborating to develop innovative ideas and optimal solutions.

Accountability

We take ownership for our actions and their outcomes. We have the courage to make bold decisions and we deliver what we promise.

SAFETY POLICY

GET BACK HOME SAFE

ENVIRONMENTAL POLICY

RESPECTING OUR PLANET

The company operates a safety policy in compliance with internal set objectives of recognized standard.

Safety consultants are retained to advise on all safety matters related to company activities.

Safety awareness is highlighted for all projects and risk assessment is prepared to recognized standards to control hazards.

The safety policies followed are aimed at working together with clients to achieve the objective of zero safety related incidents.

**WE EXIST TO
PROTECT THE LIVES
OF PEOPLE AND
THE COMMUNITY
IN WHICH WE LIVE
AND WORK**

Environmental policies are operated to ensure safeguards in respect of the environment and society in connection with all of its activities. The company additionally complies with all client requirements regarding environmental policies, which are in force at its sites or operating locations.

REDA Hazard Control company policy is aimed at reducing environmental impact to a minimum and ensuring that all related activities are carried out in accordance with recognized approved procedures.

**OUR AIM IS
TO REDUCE
ENVIRONMENTAL
IMPACT TO A
MINIMUM**

OUR CERTIFICATION

TRAINING IS A LONG-TERM INVESTMENT

Accredited

REDA Hazard Control is committed to quality and excellence. Our Quality Management System meets the requirements of ISO 9001: 2019 and our company is already certified by the Societe Generale de Surveillance (SGS). Other locations will shortly follow.

Company Certification

- SFDA Certified Company
- DNV-GL Maritime Approval
- Saudi Aramco Approved Plant ID
- Civil Defense Approval
- ISO 9001: 2015
- ISO 14001: 2015
- OHSAS 18001: 2007
- ABS Certification
- ASME Approved Facility
- UL Listing & FM Approval Filling Facility
- OSHA Approval
- HCIS Approval
- NFPA Approved Fire Truck Testing Facility

Engineering Certification

- Novec 1230 Fire Suppression System
- FM 200 Fire Suppression System
- Fire Alarm System
- High Pressure CO₂ System
- Room Integrity Test
- Mobile Fire Suppression System
- Kitchen Hood Suppression System
- VESDA System
- Water Extinguishing System
- Fire Pumps Calculation

Service Certification

- SCBA & SCUBA inspection and overhauling
- Fire Extinguisher inspection and maintenance
- Breathing Air Compressor inspection and maintenance
- Fixed and portable gas detection maintenance
- High Pressure and Low Pressure Loops
- Bug Blower
- Safety Shelters
- Rig up and Rig Down Services
- H₂S and HSE Trained Specialists
- Hydraulic equipment inspection and overhauling
- Fire suppression equipment and systems inspection and maintenance
- Fire alarm system inspection and maintenance
- Fire pump inspection and maintenance
- Fire Trucks inspection and maintenance

DIVISIONS

TURNKEY SOLUTIONS PROVIDER

Our specialist team will work with you on site to assess and diagnose the challenges and exposures unique to your facility, prescribing solutions tailored to meet your potential threats. These diverse settings demand best in-class products and comprehensive solutions.

REDA Hazard Control is associated with global technology leaders offering top of the line products in fire protection, safety and security. We offer a bespoke service to map your requirements with code consulting and risk assessment studies.

WHY

REDA Hazard Control

We don't only supply equipment produced by many of our world most known partners, we also provide design and engineering

services, technical advisory services, inspection and preventive maintenance program, comprehensive testing and training services

to ensure the safety of working people in all the demanding industries we serve throughout the regions we cover.

- 1** Medical Equipment
- 2** Firefighting Equipment
- 3** Rescue Equipment
- 4** Security Equipment
- 5** Safety Equipment

SUPPLY

HEALTH AND SAFETY EQUIPMENT

AT A COST-EFFECTIVE PRICE

REDA Hazard Control offering a wide range of Health & Medical Equipment from the leading manufactures around the world.

Our team has its roots in the dynamic world of health and safety today and we strive with passion to offer answers to the delicate necessities of rescue respecting high standards of quality. Today a wide range of REDA Hazard Control products are being used all around the world by cutting edge clients.

1

Comprehensive Rescue System

Our most extensive set of medical supplies help to manage life-threatening issues such as severe bleeding, seizures, choking, hypothermia, broken bones, allergic reactions, and more.

2

Defibrillator for Integrated Pediatric Rescue

The innovative, intuitive design and enhanced features of this technology gives unexpected heroes both the confidence and the knowledge needed to treat (SCA).

3

AutoPulse for EMS

AutoPulse allows EMS professionals to continue providing high-quality chest compressions down steep stairwells, around sharp corners, or even in a cramped elevator.

4

Transport Ventilator for EMS

Like everything else medics carry, ventilators must stand up to the tough physical demands of the EMS environment. It is easy to use, portable, durable, and rugged. Designed to be lightweight and energy-efficient.

5

Monitor Defibrillator

Easy-to-use technologies help you consistently deliver high-quality CPR and provide optimal defibrillation and pacing treatments for all patients.

6

Monitor/Defibrillator for EMS

It is compact and lightweight and delivers the capabilities you expect from a full-featured monitor. When it comes to durability, its durability is measured against the most current military-specified standards.

7

Targeted Temperature Management Systems

Because patients, clinical scenarios, and protocols differ, the choice of target temperature is based on achieving the best outcome for each patient. Reduce the risk of missing your target. A change in temperature as small as 0.1°C triggers an immediate adjustment in the saline temperature.

8

Portable Ventilator for Hospitals

Transporting respiratory distress patients can be demanding. Switching from ICU devices to bag valve masks or other devices to maintain a patient's appropriate oxygen level is complicated. Supporting the needs of infants through adults, it features a full range of ventilation options, making this portable ventilator not only easy to use but also MRI-conditional, providing patients with high-quality ventilation all the way to the MRI suite.

HEALTH AND SAFETY EQUIPMENT

AT A COST-EFFECTIVE PRICE

When we speak of safety, quality is not an option.

It's the minimum requirement if we want a product made to last. Every project we handle is developed with the intention of redefining new standards in quality.

We want to beat the expectations of even the most competent and demanding client; face and resolve the most complex problems in emergency and make the superior quality of our products clear and easy for all to see and understand, Constant contact with our clients and end users: essential to reach top quality levels and to feed the true soul of innovation.

9

Transport Systems

10

Resuscitations Masks

11

Suction

12

Oxygen Tanks & Accessories

13

Emergency Ventilators

14

Emergency Bags & Backpacks

15

Recovery Stretchers

16

Large EMS Duffles

17

Small First Responder Bag

Safety Cabinets and Storage

Safety Cabinets to store flammable liquids, corrosives, pesticides and other hazardous materials. All fire-resistant safety cabinets by Our Suppliers meet fire codes and safety regulations.

To help protect your people and facility from a potential fire, This safety cabinets are engineered to safely contain flammable fuels, solvents, and chemicals.

18

HEALTH AND SAFETY EQUIPMENT

NEW INNOVATIONS

Virus removal from the Breathing Air

This unit got developed to remove bacteria, pollens & virus from the air entering Breathing air compressor & B-blending Nitrox compressors. This unit uses special UV filter with frequency which kills RNA of the virus & ensures virus free air in the hospitals.

19

Helium Recovery Application

Helium is widely used in Medical equipment like MRI (Magnetic Resonance Imaging) machine. Liquid helium is used because of its cold temperatures which helps in superconductivity process. Basically, It cools down the magnetic sensors which create images of the human body.

As helium is an expensive gas medical companies try to recover the evaporating Helium which can be given back to the gas companies.

20

FIREFIGHTING EQUIPMENT

ALL IN ONE FIRE FIGHTING EQUIPMENT SUPPLIER

REDA Hazard Control offers a comprehensive range of fire fighting products covering the needs of the industries we serve.

Our range of fire fighting products include the following:

- Response Vehicles: Fire Engines, Aerial Devices, Tankers, Hazmat, Rescue & Command Vehicles, Ambulances and Support Appliances
- Fire Extinguishers, Dry Chemical Agents and Filling Machines
- Self-Contained Breathing Apparatus, Airline Systems and Respirators
- High Pressure Breathing Air Compressors
- Thermal Imaging Cameras
- Fire Fighting PPE: Bunker Gears, Flash Hoods, Boots, Helmets and Gloves
- Fire Hoses, Adaptors and Fittings
- Foam Solutions and Foam-making Equipment
- Master Streams and Hand-line Nozzles
- Hydraulic Rescue Equipment
- High Angle & Confined Space Rescue Equipment
- Storage Solutions for Fire Gear, SCBA, Cylinder and Hoses
- Training Simulators and Advance Live Training Facilities
- High-volume Mobile Monitors, Pumps, Large-diameter Hose and Foam-making systems
- Fire Hydrants, Manifolds and Valves
- Hose Reels Stations, Cabinets and Accessories
- Rehabilitation Trailers and Products
- Test & Maintenance Equipment

RESCUE EQUIPMENT

THE DIFFERENCE BETWEEN A LIFE SAVED OR A LIFE LOST

REDA Hazard Control offers a comprehensive range of rescue products covering the needs of the maritime industry.

Our range include the following:

- Marine Evacuation Systems
- Liferrafts
- Lifeboats & Rescue Boats
- Personal Lifesaving Appliances
- Personal Protection
- First Aid & Medical
- Emergency Communications
- Tracking & Navigation
- Transfer & Escape
- Crewsaver Life-jackets
- Gas Distribution Welding System
- Crewsaver Immersion Suits
- Lifebuoys
- Pyrotechnics
- Crewsaver Immersion Suits
- Transfer & Escape
- Tracking & Navigation
- Emergency Communications

SECURITY EQUIPMENT

THE BEST FOR WHAT MATTERS THE MOST

**YOUR FIRST
CALL FOR
SECURITY
PRODUCTS**

Our range of security products include the following:

Detection & Screening

- Baggage and Parcel Inspection Equipment
- Hold Baggage Screening Equipment
- Explosives and Narcotics Trace Detection Equipment
- People Screening Equipment
- Tray Return Systems
- Radiation Detection Equipment
- Cargo Inspection Systems
- Vehicle Inspection Systems

Speed Detection

- Mobile Speed detection
- Vehicle-mounted speed detection
- Photo enforcement fixed
- Photo enforcement portable
- Traffic sensing and analytics
- Road signals and messaging

Smart Gates

- Under Vehicle Scanning Systems
- Driver & Passenger Cameras
- Automatic license plate reader

Law Enforcement/Security Services

- Body cameras
- Tactical holsters/accessories
- Flashlights
- Warning lights

SAFETY EQUIPMENT & SOLUTIONS

INTEGRATED TO PROTECT HUMANS & ASSETS

**OFFERING
FULL RANGE
OF SAFETY
SOLUTIONS**

REDA Hazard Control has collaborated with the industry's leading manufacturers of safety equipment, materials and systems providing our customers with a full range of solutions. From top to toe, we have the experience and knowledge to provide the products that best fits your needs.

Our range of products include the following:

- Head Protection; hard hats and helmets
- Face Protection; half and full masks, shields, respirators and breathing devices.
- Eye Protection; glasses, goggles, emergency eyewash and showers.
- Hearing Protection; muffs and bongs
- Body Protection; chemical, fire resistance, arc flash and disposable cloths, fall protection products and cooling vests
- Foot Protection; all types of safety shoes.
- Hand Protection; all types of gloves
- Single and multi-gas detectors.
- Lockout - Tagout, sign and printer products
- First Aid Products.

And many more....

AND SERVICES**

ENGINEERED FIRE PROTECTION SYSTEMS

WE SUPPLY ALL KNOWN FIRE PROTECTION SYSTEMS

**YOUR FIRST
CALL FOR
HOSPITAL FIRE
ENGINEERED
SYSTEMS**

We have the capabilities to supply all known fire protection systems.

Our Engineered Fire Protection Systems' core activity covers the following:

Gas Suppression Systems

- a. Novec-1230™
- b. FM-200®
- c. High and Low Pressure Carbon Dioxide
- d. Inert

Water Based Systems

- a. Wet Sprinkler
- b. Deluge
- c. Pre-action
- d. Foam: Low-, Medium- and High Expansion

Fire Detection and Alarm Systems

- a. Conventional and Addressable
- b. Air Aspirating Smoke Detection

Gas Detection Systems

- a. Fixed Gas Detection
- b. Portable Gas Detection Systems and Monitors

ENGINEERED SECURITY SOLUTIONS

INTEGRATED TO PROTECT HUMANS & ASSETS

COMPLETE
SECURITY
SOLUTIONS
UNDER ONE
ROOF

REDA Hazard Control is specialized in providing total integrated security solutions covering security systems to physical security on site.

Our range includes but not limited to the following:

- CCTV Surveillance System.
- Access Control System.
- Intruder Alarm System.
- Gates Barrier System.
- Perimeter Protection System.
- X-Ray & Scanning System.
- Audio & Video System.
- Vehicle Control System.
- Nurse Call System.
- Guard Tour System.
- Public Address System.
- Anti-Explosion/ Anti Shatter Film & Bullet Proof Glass.

ENGINEERING, CONTRACTING AND CONSULTATIONS

DESIGN, SUPPLY, INSTALL, TEST AND COMMISSION

**YOUR FIRST
CALL FOR FIRE
ENGINEERED
SYSTEMS**

We Have the capacity to design, supply, install, test and commission of all known fire protection and security systems. Our professional team is well qualified and industry certified to design, engineer and implement systems across the spectrum we serve.

REDA Hazard Control offers:

1. In-house engineering services to carry out detail design in accordance to the project specification as well as NFPA, HCIS or other regulating standards having relevance.
2. Field engineering services to our prestigious project to determine on site solution to minimize the time required for any installation.
3. Quality control during the project execution.

REDA Hazard Control has collaborated with internationally renowned consultants like Jensen Hughes and Aon to provide our markets with a range of specialist consulting services.

- Fire Protection Engineering and Design.
- Fire, Life Safety and Accessibility Code.
- Consulting Security Design and Consulting.
- Fire, Smoke and Egress Modelling.
- Quantitative Risk Assessment and Hazard Analysis.
- Forensic Engineering and Litigation Support.
- Construction Administration and Commissioning.
- Research, Development and Testing.
- Emergency Planning Combustible Dust Hazards.
- Loss Control Surveys Condition Assessments.
- Mass Notification Systems (MNS).
- Emergency Planning.

INSPECTION AND PREVENTIVE MAINTENANCE SERVICES

COLLABORATED WITH GLOBAL RENOWNED CONSULTANTS

REDA Hazard Control is committed to provide the highest level of inspection and preventive maintenance for fire protection, fire suppression and fire alarm systems in addition to fire fighting and safety equipment.

Our factory trained and certified technicians take pride in ensuring your products and systems are maintained according to manufacturers' standards and guidelines as well as the international codes having reference.

Our services comprise of:

- On-site inspections
- Preventive maintenance on all types of Fire Protection Systems
- Hydrostatic pressure testing and recharging of fire extinguishers, breathing apparatus cylinders and fire hoses.
- Calibration and certification of breathing apparatus and gas detectors
- Repair and maintenance of SCBA, Fire extinguishers, Fire hoses, Hydraulic Rescue Tools, Breathing Air Cascade Systems, Portable and Fixed Gas Detection Systems as well as Breathing Compressors
- Fire Trucks Inspection and Pump Testing in accordance to NFPA 1911

TURNKEY PROJECTS

EVERY SINGLE STEP MATTERS

**INTEGRATED
FIRE
PROTECTION
AND SECURITY
SOLUTIONS**

We have the capacity to manage and perform turnkey projects across the sectors we serve working with international Consulting Houses and EPC Contractors. In addition to the technical support provided by our world reputed partners, we have at our disposal the advanced planning, design and modelling technology. We have the right people, products, financial resources and expertise to manage and serve your complete turnkey projects, be it fire protection, security, life safety or emergency response related.

REDA Hazard Control is also HCIS (Higher Commission for Industrial Security) approved Fire Protection Systems Contracting Company capable of undertaking large turnkey projects in Fire Protection Systems for industries.

- Conceptualization, detailed design and the production of drawings.
- Supply and installation of a wide range fixed fire protection systems.
- Testing & commissioning of systems.
- Provision of As-Built documentation.

REDA Hazard Control has executed many prestigious projects in the Petrochemical, Oil & Gas, Mining and Power Generation Industries since our birth.

1 Vehicles, Trailers And Containers

2 Pipes And Skids

3 Cabinets And Hose Reels

4 Fire Suppression Systems

Our manufacturing arm FHC is a leading manufacturer of custom designed & integrated fire protection equipment with over two decades of experience in industrial applications across the MENA region. FHC has three state-of-the-art plants with 300,000 Sq.ft in foot print located in Dammam 2nd Industrial City in Saudi Arabia served by competent engineers and up to date fabrication equipment allowing us to design, produce and assemble a wide range of fire and safety products and systems.

FHC has deep knowledge in the industrial applications' requirements backed up by close relationships with world-known manufacturers in the field of fire protection.

FHC has four main manufacturing/fabrication lines in which different types of products and systems can be designed, manufactured and integrated.

MANUFACTURING

VEHICLES, TRAILERS AND CONTAINERS

CREATE. ENHANCE. AND SUSTAIN

FHC facility is licensed to design and fabricate trailers and specialized vehicles applying the latest transport industry regulations and standards. We are also a member of National Truck & Equipment Agency (NTEA) of the USA.

REDA Hazard Control's edge comes from the custom designed aluminium extrusions used for light weight and strength purposes reducing fabrication time and producing a smoother finish.

- Breathing Air & H₂S
- Trailer/Container Flat Bed & Goose Neck Trailer
- Water & Fuel Tanker
- Fuel Transfer Vehicle
- Light Rescue Vehicle
- Mobile Service Vehicle
- Foam Tote Trailer
- Quick Attack Vehicle
- Foam Monitor Trailer
- Fire Equipment Container
- Hose Trailer and Vehicle
- Hazmat Trailer and Vehicle
- Other Custom-built Specialty Vehicles.

Note: Our AMBULANCE VEHICLE is designed in accordance with KKK-1822, NFPA 1917, and CAAS recommendations for optimal crew and patient safety and comfort.

PIPES AND SKIDS

CREATE. ENHANCE. AND SUSTAIN

INTEGRATED
WITH LOCAL
TALENTS

FHC provides the market with a wide range of Foam & Deluge Skids customized to need using state of the art modelling and engineering solutions.

In addition to skids, we specialized in various custom designed structural steel works. Our engineering team and certified welders work with WPS & PQR approved welding processes produces products of excellence guaranteeing client satisfaction.

FHC's fabrication work is done in precise under strict compliance to our quality and inspection procedures applied to every fabrication stage albeit welding, grit blasting, hydro-testing and surface protection and finishing. Customers are provided with windows to witness any of the fabrication stages in person or through their appointed quality certifying agency.

- Balanced Pressure Proportioning Foam Skids
- Bladder Tank Foam Skids
- Turbine Type Proportioning Foam Skids
- Horizontal and Vertical Deluge Skids
- Wet Barrel Hydrants
- Wet Barrel Monitor Hydrants
- Elevated Monitor Structures
- Fire Water Manifolds

CABINETS & HOSE REELS

CREATE. ENHANCE. AND SUSTAIN

**FULLY
CUSTOMIZED
IN THE
KINGDOM OF
SAUDI ARABIA**

FHC has the capabilities to design and produce various sizes and shapes of standard and custom-built cabinets by using computerized numerical control machines for high precision, accuracy and ultimate finish. All associated processes, including the liquid and powder coating technologies, utilizes in-process inspection and quality monitoring to assure that final deliveries are identical to the demo samples provided to obtain customer approval.

- Fire Hose Reel & Rack Cabinets
- Fire Extinguisher Cabinets
- Fire Hydrant Cabinets
- Bunker Gear Cabinets
- Breathing Air Storage Cabinets
- Fire Extinguisher Pan Stands
- Combination Fire Hose Reel & Fire Extinguisher Cabinets
- Fire Valve Cabinets
- Foam Drum Shelters
- Breathing Air Cascade System Monitoring Cabinets
- Wheeled Fire Extinguisher Shelter & Cabinets
- Fire Water Hose Reel Stations
- Foam Hose Reel Stations

FIRE SUPPRESSION SYSTEMS

CREATE. ENHANCE. AND SUSTAIN

UL/FM FIRST
FILL AND
REFILL LOCAL
FACILITY

FHC Novec 1230™ and FM-200® filling facility is the first of its kind in the region to supply fire suppression systems from TYCO Fire Protection Products. The facility provides more efficient service for customers across Saudi Arabia and other parts of the MENA and significantly improves lead times on suppression system supply and maintenance.

Advantages:

- Novec 1230™ and FM-200® First Fill
- 24/7 Refilling
- Cylinder Valve Assembly
- Manifold Manufacturing and Testing
- Nozzle Drilling
-

Capabilities:

- In-Stock Available Systems
- In-process Inspection Witness
- Changeability
- Ready-to-Connect Modular Systems
- Availability of Spares Inventory
- Local Warranty Claims
