

CERTIFIED FIRE INSPECTOR II (CFI-II)

Certification Preparation Course

START INSPECTING WITH REDA HAZARD CONTROL

INTRODUCTION

Ready to advance your fire inspection skills? The Certified Fire Inspector II (CFI-II) certification builds on CFI-I, preparing you for complex challenges. REDA Hazard Control offers expert-led training for this ProBoard-accredited credential. Elevate your career and protect communities with advanced expertise. Let's begin!

WHY CFI-II?

- **Next Level:** Builds on CFI-I with advanced NFPA 1031 skills, focusing on complex inspections and plan reviews for larger facilities.
- **Leadership:** Earn a ProBoard-accredited credential that positions you for senior inspector roles or supervisory positions in fire safety.
- **Expert Scope:** Master NFPA 1, 13, 24 (Water Distribution), 25, 72, 101, and 220 (Construction Types) for broader, high-stakes responsibilities.

WHAT RHC OFFERS

- **In-Depth Prep:** Covers NFPA 1031's advanced requirements, including detailed code analysis, sprinkler system evaluations, and building plan assessments.
- **Expert-Led Sessions:** Live, interactive training with REDA's top instructors, featuring real-world scenarios and in-depth code discussions.
- **Practice Exams:** Rigorous 110-question mock tests matching the 2-hour exam format, plus practicum coaching for advanced field tasks.
- **Resources:** Provides digital code references, plan review templates, and instructor-led Q&A to ensure mastery of complex topics.

STEPS TO SUCCESS

1. **Prerequisite:** Must hold CFI-I certification; REDA verifies eligibility upon enrollment.
2. **Enroll:** Join REDA Hazard Control's program, with new sessions starting monthly and flexible timings for professionals.
3. **Pass:** Excel in the 2-hour, 110-question exam (70% passing score) and complete an advanced practicum, with REDA's expert support.
4. **Certify:** Achieve your CFI-II credential, ProBoard-registered, and step into leadership roles in fire inspection and prevention.

TAKE ACTION

- **Call us:** Our sales team is ready to meet with you to discuss how you can design your course in collaboration with them.
